

CMS EMERGENCY PREPAREDNESS WORKSHOP

INCIDENT COMMAND & EVACUATION OR SHELTER IN PLACE – WHAT YOU NEED TO KNOW

This free workshop will educate leaders in health care residential and other medical facilities on the basics of incident command and how it may affect their facilities should an emergency or incident occur.

Objectives:

- Participants will be able to identify the key principles of NIMS in the context of healthcare.
- Participants will be able to identify when it's appropriate to initiate the ICS system for any type of emergency, incident or other situation.
- Participants will be able to identify the role of the Incident Commander and other related positions.
- Participants will be able to understand the key principles associated with an evacuation of their facility or sheltering in place during an emergency.
- Participants will be able to use the practical knowledge learned and apply it to a situational exercise.
