**May 2, 2018
8:30 am – 4:00 pm**

**South Central College
Conference Center
North Mankato, MN**

**LIMITED SEATING
PLEASE REGISTER EARLY**

DESCRIPTIONS

Are You Ready for A Measles Outbreak?

Our team will discuss the Children's Minnesota response to the 2017 Minnesota measles outbreak, during which 67% of the total cases and 100% of the hospitalized pediatric cases statewide were cared for at Children's. This discussion will include both our clinical response and successful outcomes from employing a hospital incident command structure during the 136-day response.

Managing a Large Scale Shelter – Hurricane Harvey – Lessons Learned

Carie will talk about her experience participating and managing a large scale shelter and off-site care facility in Houston following the devastating hurricane Harvey. She will share how the DMAT teams operate under less than ideal conditions while protecting and serving the medical needs of the evacuated public. Carie will also talk about "lessons learned" and opportunities to consider should you ever open a shelter or alternate care site.

TB or not TB

Living in rural Minnesota has its advantages, but also its challenges when dealing with diseases such as TB. It can overwhelm your agency in many ways: staffing, finances, language barriers, and transportation, just to name a few!

Vendor Vignettes

We will have vendors each speak for less than 5 minutes on what is new in their world.

What's New in East Overshoe?

We will explore the changes occurring in the mythical, rural, East Overshoe County presented by a local resident Einer Otterson. East Overshoe County mirrors rural Minnesota.

Civil Unrest – a Hospital Approach

Large groups of people, whether in protest, counter-protest, or even recreational pursuits can pose significant challenges to our work. This presentation will highlight some areas that occurred at the DAPL protests in 2016-2017.

Minnesota's Emergency Preparedness and Response Initiatives: Living the Present and Embracing the Future

Partners will learn about current updates of statewide initiatives, including but not limited to: Pediatric and Burn Surge, Crisis Standards of Care, Access and Functional Needs, close point of distribution resources, etc. In addition, information will be shared on the future of the Health Care Preparedness Program and efforts being made to ensure its longevity.

Regional Epidemiology Update

A regional snapshot of what the SC/SW District has been dealing with.

Wednesday, May 2, 2018

8:30 a.m. – 4:00 p.m.

**South Central College
Conference Center
North Mankato, MN**
